Presented by the American Society of Interior Designers

TREASURES NEAR AND FAR

Created by Janine Thierry Brown and Sondra Cesena-Dove

Rich autumnal colors and fabrics inspire creativity in this special writing studio filled with inspiration and treasures from around the world. The black Besarabian kilim rug bespeaks the Mideast and sets the color scheme in tones of deep gold, red and green. The console table is Asian, while seagrass woven chairs whisper of distant islands. Settle into the leather chair to journal your dreams.
